

**Noxious Weed and Uncontrolled Plant Growth Ordinance** will be enforced again this year. Details will be published in the newspaper in March. **If your grass exceeds 8", you will be notified.** If not taken care of in the time period specified, the township will mow it and send you the bill. If the bill is not paid, it goes on your taxes. Property values are important to all landowners. By maintaining your property, you are helping the township in it's attempt to control blight.
